Description :

PDF-6937d | Once in a great while, as the New York Times noted recently, a naturalist writes a book that changes the way people look at the living world. John James Audubon's *Birds of America*, published in 1838, was one. Roger Tory Peterson's 1934 *Field Guide to the Birds* was another. How does such insight into nature develop? Pioneering a new niche in the study of plants and animals in their native habi... *Field Notes on Science & Nature*
